

The C-Class

Cabriolet

Mercedes-Benz

Never stop improving.

Only the best of their kind have this drive: to become better, day by day. It's written all over the face of the C-Class. The state-of-the-art MULTIBEAM LED headlamps and the powerful, sporty design of the AMG Line are set on one thing only: going further and further.

For those who know no limits.

With the C-Class Cabriolet, the cabriolet season lasts all year round. Courtesy of its exceptional open-air comfort, encompassing options such as the AIRSCARF neck-level heating system, AIRCAP draught-stop and sun-reflecting leather. And if it rains, you can simply continue to admire the beauty of nature in the interior, with the new trim finishes in anthracite open-pore oak wood and brown open-pore walnut wood.

Innovative power from deep within.

Many of the control and display elements are completely new: the new steering wheel with Touch Control buttons and, according to specification, fully digital instruments and larger displays, including a new infotainment generation, are state-of-the-art features that make operating the car a highly individual affair. Depending on the precise specification, the instruments can also feature the “Classic”, “Sporty” or “Progressive” display styles.

A white Mercedes-AMG GT is shown from a rear three-quarter view, driving on a wide, paved coastal road. The road has white dashed lane markings and is flanked by a concrete barrier and a row of tall palm trees. In the distance, a hazy coastline with hills is visible under a clear blue sky. The car's interior features red leather seats. The overall scene conveys a sense of speed and luxury.

EQ Boost. The force of mobility.

EQ Boost implies fast acceleration, silent coasting in gliding mode and reduced fuel consumption. For this purpose, a petrol engine is intelligently electrified by integrated starter-alternator. Complementing it perfectly is the new DYNAMIC BODY CONTROL suspension. For a sportily taut set-up and exceptional comfort, all it takes is the touch of a button.

64 colours. One unique ambience.

For any mood and any time of day or night. For any occasion and different each time: the ambient lighting transforms the interior of the new C-Class Cabriolet into a stunning lounge area. It comes with a range of 64 colours, which can be individually selected.

Mercedes-Benz Intelligent Drive.

Be it during rush hour, on long night-time journeys or on unfamiliar routes. Your Mercedes-Benz C-Class Cabriolet noticeably takes the strain out of driving, especially in stressful situations. It's all down to a concept that makes every journey in a Mercedes-Benz a safe and exceptional experience: Mercedes-Benz Intelligent Drive. Because the time you spend behind the wheel is your time. Time for relaxation. Time to replenish your energy. So that, first and foremost, you reach your destination safely, but also always more relaxed.

Driving Assistance package: enabling you to arrive safely. The Driving Assistance package turns the car into a thinking partner, pooling state-of-the-art safety and assistance systems. These monitor the surroundings, are able to detect danger and then provide a warning in an emergency and apply the brakes autonomously. You can also enjoy support in monotonous situations such as stop-start traffic or tailbacks.

The **PRE-SAFE® system** uses the time leading up to an impending accident for your benefit. A raft of measures can reduce the loads generated as a result. The innovative PRE-SAFE® Sound generates a noise from the speakers which can trigger a natural protective reflex, thereby protecting the inner ear by damping the accident noise.

Parking package with 360° camera: four networked cameras integrated into the vehicle enable a realistic 360° view for perfect situational awareness when parking and manoeuvring.

ENERGISING COMFORT AND EXEMPLARY SAFETY. MULTIBEAM LED headlamps have individually controllable LEDs that react to the given traffic situation. Partial main beam masks out other road users without dazzling them. ULTRA RANGE Highbeam increases the range to the permitted maximum. The cornering light and active light functions also optimally light up the field of vision.

Digital cockpit.

Smartphone Integration connects the mobile phone with the media system via Apple® CarPlay® and Android Auto®, so giving you convenient access to the most important apps on your smartphone. You can also use apps from third-party providers such as Spotify quickly and easily.

With **Mercedes me connect** you, your smartphone and your Mercedes-Benz can link up to exciting effect. Be it on the road or from home: with Mercedes me connect you can easily look up important vehicle data, such as mileage, tyre pressure and fuel level, on the Mercedes me Portal or the Mercedes me App. Telediagnostics, Accident Recovery, Maintenance Management, Breakdown Management and the Mercedes-Benz emergency call system offer you networked safety.

The **fully digital instrument display** with the display styles “Classic”, “Progressive” and “Sporty” enables you to decide which information is important to you and how you wish to see it displayed. The 31.2 cm (12.3-inch) display delivers a pin-sharp image which is easy to read in all light conditions.

The **high-resolution media display** with a 10.25-inch screen diagonal adds a particularly high-quality touch to the interior of your vehicle. Thanks to the higher resolution of 1920 x 720 pixels you can enjoy brilliant image quality with razor-sharp presentation of all infotainment content

Wishes always to extend from the world of Mercedes-Benz. When it comes charging time – with just a simple hand movement your smartphone can be fixed in place in the oddments tray, where it is charged wirelessly. Irrespective of the model and brand, compatible smartphones are charged wirelessly.

Fabric acoustic soft top.

With the fully automatic fabric acoustic soft top you feel just as good in your cabriolet as under a solid roof. The special acoustic fleece material effectively shields against driving and external noise, and minimises background noise in the interior. For a pleasantly quiet atmosphere on board – even when driving at high speed.

Ambient lighting.

Showcase the interior according to your personal preferences or current mood. With a total of 64 colours, the ambient lighting gives you almost unlimited scope for lighting schemes, and has the right colour available for any situation.

Cabriolet Comfort package.

Make the cabriolet season last all year round: enjoy optimum open-air comfort at any time and experience the changing seasons. With the AIRSCARF neck-level heating, the AIRCAP draught-stop system and the semi-automatic boot separator, the package bundles together intelligent items of equipment which complement each other perfectly and indulge you all round.

Draught-stop.

Protect yourself and your passengers from draughts – with the draught-stop you can still drive with the roof down, even at higher speeds and when it's cold outside. The mesh screen above the rear seats can be fitted in an instant and removed again at any time.

Standard equipment and appointments.

Thrilling design for genuine emotions: the exterior of the car in its standard guise is already stunning, featuring as it does powerful styling elements such as the diamond radiator grille with single louvre or the cutting-edge LED High Performance headlamps. The lowered suspension offers the perfect balance between dynamism, comfort and safety. With its design idiom and choice of materials, the high-quality interior already conveys a sporty lifestyle in the standard specification. The integral-look seats are a particular highlight: they offer a low, comfortable seating position and perfect lateral support – and thus pure driving enjoyment.

The AMG Line.

The expressive bodystyling of the AMG Line lends the exterior of the C-Class a sporty, exclusive touch. As such you can make a clear statement for powerful design. The technical features additionally provide you with more tangible driving pleasure, as the sports suspension tuned for agility and coupled with the Sports Direct-Steer system ensures emphatically dynamic handling. The AMG Line interior lends your vehicle a more visible and tangible sense of sportiness. With it, you make a clear statement and show immediately what matters to you: an ambience that is dynamic and exclusive in every detail.

The Night package.

More character – expressive style. In combination with the AMG Line, the Night package adds striking highlights in the form of exclusive black design features. These accentuate the sporty character and athletic design idiom of your vehicle. Ideal for individualists who appreciate an expressive design.

The design interior.

Choose a touch of extravagant luxury: the two-tone designo interior adds an expressive and individual touch to your interior. Bengal red trim is offset by black elements to create exciting contrasts. The high-quality materials have been worked with superb craftsmanship.

DYNAMIC BODY CONTROL.

One suspension – three possible set-ups: with DYNAMIC BODY CONTROL, you can choose between maximum agility and high damping comfort. To match the route and personal driving style. The low suspension level and the Sports Direct-Steer system create the ideal conditions for adopting a particularly dynamic driving style. The DYNAMIC BODY CONTROL suspension features continuously adjustable damping for both the front and rear axle. The stepless system controls the damping characteristics in conjunction with engine, transmission and steering characteristics for each wheel individually – to match the driving situation, vehicle speed and road surface condition. This variable configuration allows you to benefit from superb ride comfort and outstanding driving dynamics.

FURTHER HIGHLIGHTS

It's possible to switch between a sporty and a comfortable configuration at the simple touch of a button. This is possible with the **DYNAMIC SELECT** switch in conjunction with one of the two suspension systems available: DYNAMIC BODY CONTROL or AIR BODY CONTROL.

4MATIC all-wheel drive.

In city traffic, on country roads or on the motorway: with the permanent all-wheel-drive system from Mercedes-Benz you will always feel safe on the road. The system improves traction when pulling away and accelerating, especially on a poor road surface. This is made possible by the perfect interplay between the 4MATIC system and the electronic

braking, control and traction systems ABS, ESP® and 4ETS. The all-wheel-drive system is constantly active and does not require any reaction time before intervening. Particularly on wet, snowy or icy roads, the improvement in driving and tracking stability is quite noticeable.

No compromises.

Every Mercedes-AMG is a masterpiece in its own right, with an unmistakable character. What unites our performance vehicles and sports cars is their irrepressible sporting spirit. Their passion for top performance. It is generated at the point where engineering skill meets a very special attitude: the spirit of AMG. We believe that you have to keep on challenging limits in order to achieve new goals. We accept nothing as a given. Because limits are imposed by people, and it's also people who can overcome them. It's this attitude that enables us to achieve outstanding performance for the race track – and for the road.

Welcome to the world of AMG.

The best for the engine:
Mercedes-Benz genuine engine oils.

¹ Information about the rated output according to Regulation (EC) No. 715/2007 in the currently valid version. ² Available temporarily. ³ Electronically governed. ⁴ The stated figures were determined according to the prescribed measurement method. They constitute the "NEDC CO₂ figures" pursuant to Article 2 No. 1 Implementing Regulation (EU) 2017/1153. Fuel consumption figures have been calculated on this basis. More information about the official fuel consumption and the official specific CO₂ emissions of new passenger cars is available in the publication entitled "Leitfaden über den Kraftstoffverbrauch, die CO₂-Emissionen und den Stromverbrauch neuer Personenkraftwagen" ["Guidelines concerning the fuel consumption, CO₂ emissions and electricity consumption of new passenger cars"], available free of charge at all retailers and from Deutsche Automobil Treuhand GmbH (www.dat.de). The figures are not based on an individual vehicle and do not constitute part of the product offer; they are provided solely for purposes of comparison between different vehicle models. The figures will vary according to the optional equipment selected. ⁵ Information only valid within the European Union. May vary from country to country. ⁶ Determined on the basis of the measured CO₂ emissions, taking into consideration the vehicle mass. Only valid for Germany. ^{*}Weighted electrical consumption (kWh/100 km)/Electric range (km): XXXXXXXX.
